☐ Download invoice and make payment later

Buy as gift **+**

Redeem voucher **-**

Enter voucher code:

9. You can use any PC, laptop or tablet that adheres to the following minimum specifications:

Windows

Recommended specs:

- Tablet or laptop with Windows 10
- 32GB internal storage space
- 4GB RAM

Minimum specs:

- Tablet or laptop with Windows 10
- 16GB internal storage space
- 2GB RAM

10. How do I access my eBooks.

Download the miEbooks app from the relevant app store.

Select the relevant account type (Personal or School/Institution user).

Enter your details into the required fields and select Save.

You will be redirected to your library.

The e-books that you have purchased are in your library.

Click/tap on an e-book to download it.

Click/tap on the e-book again to open it.

You only need internet access to download your e-books. Once your e-books have been downloaded you don't have to be connected to the internet to access/read them.

The miEbooks app enables users to create freehand sketches, type notes and highlight important text inside e-books. You can also generate a summary of all the highlights that have been made. This summary can be exported as a PDF document for the user to print. All annotations are automatically saved on your device. It will also be saved and backed-up to the cloud once you connect to the internet. If your educational institution uses the full suite of products from ITSi, then all of your annotations, along with additional content that may have been added by teachers/lecturers will be backed-up to the local server too as long as you connect to the local Wi-Fi at your institution.

Please note that there is a limit to how many devices you can load your purchased content onto. This limit is set by the publisher of the book. Most often, you can load your purchased content onto three devices, but some publishers have other restrictions.
